Key Features

Videos, personal action plans, and more than 100 Healthwise Knowledgebase articles feature action sets, decision points, and self-management tools.

Quizzes at the end of each module verify comprehension and mark each participant's progress.

Culturally sensitive video presentations target relevant diseases and lifestyle topics.

Clinically relevant, multi-format activities meet standards for 6th grade literacy and 508(C) compliance.

Automatic tracking of progress allows participants to earn points in wellness programs and competitions.

Intuitive user interface guides participants toward program completion while boosting overall retention of the material.
