

Create Engaging Health Screening Experiences

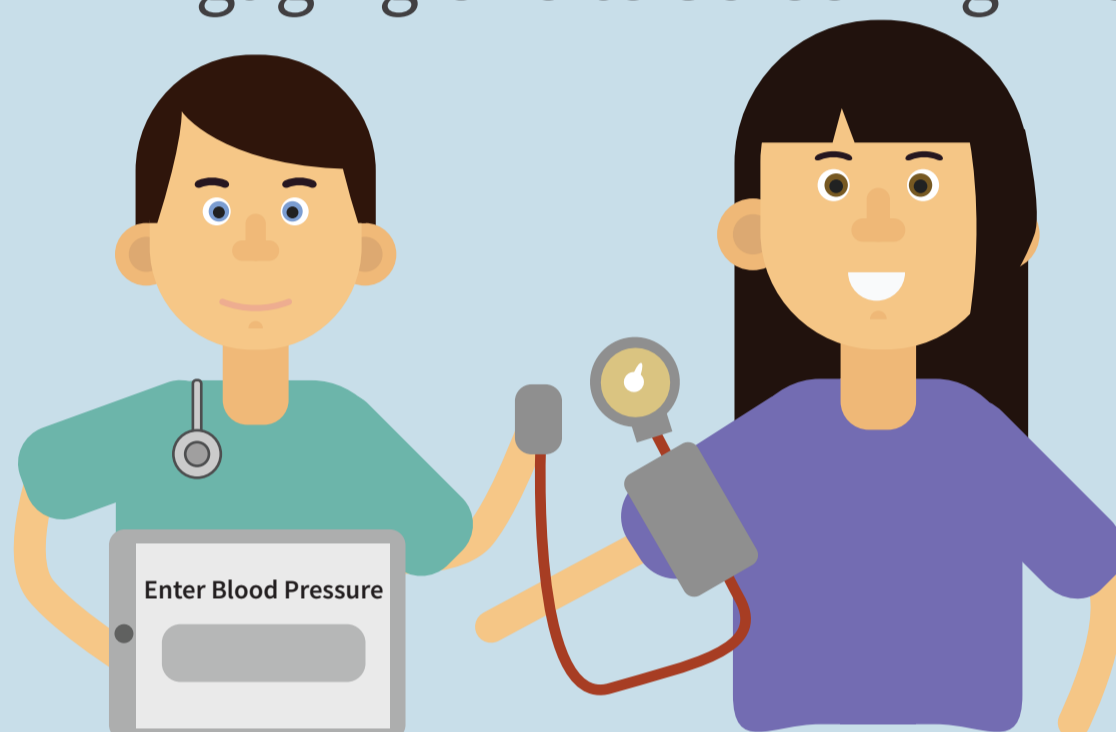

The BioIQ Platform enables you to offer participants in your screening program an efficient and engaging experience, with a seamless check-in process, streamlined screening appointment, and customized recommendations based on each participant's results. Guide participants through the process with the BioIQ Participant Portal, which can be accessed on any device.

It Starts With a Spark

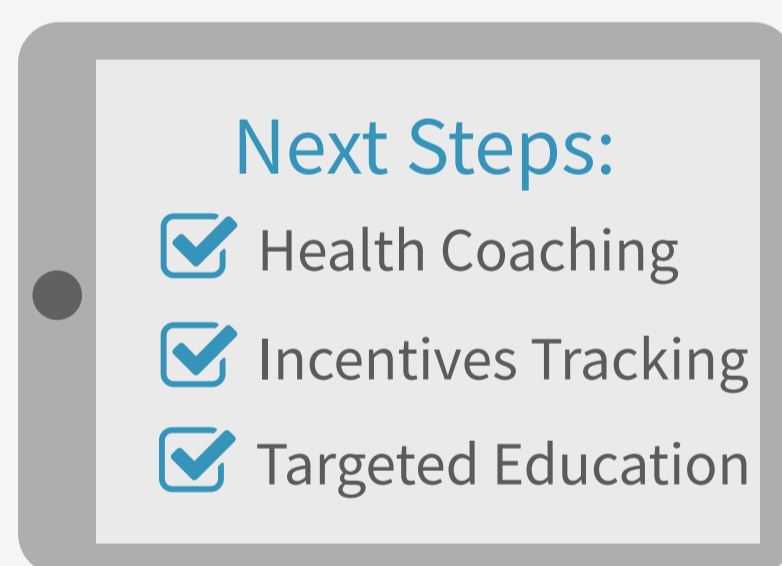

- Spark interest in the program with multi-channel announcements
- Link to BioIQ's dynamic scheduler in the BioIQ Participant Portal
- Share program details, appointment confirmations and reminders

And An Engaging Onsite Screening Event

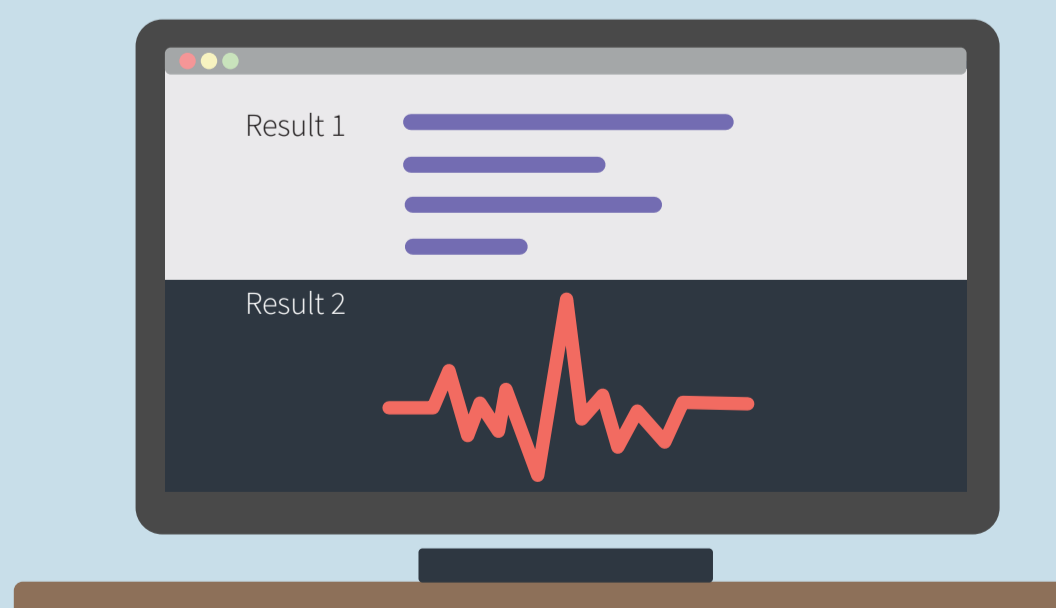

- Offer seamless check-in for scheduled appointments and walk-ins
- Access participant records and quickly update contact and insurance information
- Digitally capture, upload and print results - no need to set aside time for paper forms

Where Participants Receive Recommendations Based On Individual Results

- Complete the screening process in 15 minutes or less
- Offer recommendations based on individual results
- Enroll participants in next-step programs based on their health goals

And Receive Convenient Tools for Understanding Risks and Achieving Health Goals

- Offer easy-to-read results automatically through the BioIQ Participant Portal
- Keep participants engaged with targeted education and health coaching
- Offer an incentives tracker for completing certain activities or falling within healthy ranges
